

To Whom it May Concern:

As a new Realtor in a busy market, the past year has been both educational and challenging. As I entered the market, I was given the name of Frank DeVries from a long time agent. They informed me that Frank was well respected in his field and that I would learn a lot from him.

The first home that I sold I recommended Frank to my client. I set up the appointment and Frank and I were instantly on our way to a professional relationship.

My client was out of town so I joined Frank on the inspection, I explained that I had never been at a home inspection before and I asked if I could accompany him. Frank was very generous and explained ever detail to me. I felt educated and knowledgeable when I relayed the information back to my client. As my first year continued, I never hesitated to recommend Frank and each and every sale my clients used his services.

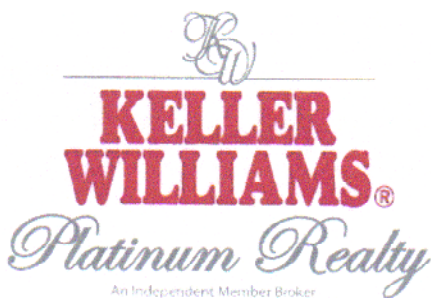

I felt that Frank was honest and professional and he took the time to explain what he had noted. I had an amazing first year and I contribute a lot of that to Frank. He made both myself and my clients feel confident in their purchase.

When I heard that Frank was leaving the city, I felt a little lost as I had grown to rely on him. Frank made me a better, more educated agent and he helped my clients thought, what sometimes, can be the biggest decision of their life.

I highly recommend Frank DeVries to you as a professional, dedicated and reliable Home Inspector.

Sincerely,

Kim Vink
