

To whom it may concern,

Regarding the professional services of Frank Devries- Amerispec Home Inspections.

During the course of our years as licensed agents in Calgary, Alberta, we were fortunate enough to have found Frank Devries for the benefit of our clients and our business.

During this time we developed a high level of trust and comfort with Frank due to his extensive knowledge, building background, structural and mechanical knowledge and most importantly his friendly demeanor and ability to clearly communicate any possible home issues to our clients and never unnecessarily jeopardized any transaction. At the same time keeping the clients best interest in mind, making them feel comfortable and confident with their home purchase.

Shortly after recommending Frank to our clients, and seeing how he successfully worked with them, and receiving the positive feedback from our clients regarding Franks services, we stopped using the services of any other home inspection companies and their representatives and would request Frank solely to handle the inspection on behalf of our clients.

In our business we have to be very careful in recommending other professional services due to the reflection upon us should any problems arise. We feel 110% confident in recommending Frank's services to our clients and have received nothing but positive reports from our clients that have used his services.

We are very sorry to see Frank leave Calgary as it equates to having to find and replace a highly valued associate and member of our team and we are doubtful that we will be able to find a replacement with Franks level of professionalism, and outstanding personality. We wish Frank all the best with his future endeavors however are confident that with his level of skill and expertise that he will no doubt flourish as he continues in his field.

Should you wish to contact us regarding our use of Frank's services, feel free to call us direct at (403) 333-6222.

Sincerely,

Carla Hart and Cal Mennie
